SKILLS

- ❖ **Programming:** C, C++, Python
- ❖ **Web Development:** HTML, CSS, Bootstrap, JavaScript, React.js, Node.js
- ❖ **Databases:** SQL (PostgreSQL, MySQL), NoSQL
- ❖ **Machine Learning & AI:** TensorFlow, PyTorch, OpenCV, SpeechRecognition, Librosa
- ❖ **Tools & Frameworks:** REST APIs, Streamlit, WebRTC

EDUCATION

B.E. in Computer Science and Engineering
RV College of Engineering, Bengaluru
2022–2026

Class XII (State Board)
Ramkrushna Vidyalaya,
Paratwada (Maharashtra)
78.33% (2022)

Class X (ICSE)
Sarala Birla Academy,
Bengaluru-560059
78.8% (2020)

PROJECTS

❖ CYBERSECURITY THREAT INTELLIGENCE

Python, APIs, PostgreSQL, SQL/NoSQL, React.js

- Created a cybersecurity intelligence platform integrating VirusTotal APIs and malware datasets for automated threat analysis.
- Developed REST APIs for real-time threat scanning, incident logging, and alert generation using PostgreSQL and NoSQL databases.
- Applied predictive analytics to prioritize threats and generate actionable cybersecurity insights.

❖ REAL-TIME STRESS MONITORING SYSTEM

TensorFlow, OpenCV, SpeechRecognition, Streamlit, WebRTC

- Developed a stress detection system using TensorFlow, OpenCV, and SpeechRecognition for facial and voice emotion analysis.
- Designed a Streamlit + WebRTC interface for live webcam-based monitoring and real-time predictions.
- Built REST APIs and preprocessing pipelines to improve inference efficiency and model accuracy.

❖ EMAIL GUARD – PHISHING DETECTION SYSTEM

Python, DistilBERT, Machine Learning, FastAPI, React, SQLite

- Built a real-time phishing detection system using DistilBERT, FastAPI, and React with 94.2% accuracy.
- Implemented detection for Unicode homograph attacks, URL obfuscation, and suspicious email patterns.
- Integrated explainable AI outputs with confidence scoring to improve transparency and reduce false positives.

❖ SUPPLYCHAIN INSIGHT

Python, React.js, Solidity

- Built a blockchain-based supply chain tracking platform ensuring transparency and secure record management using smart contracts.
- Applied machine learning demand forecasting and real-time alerts to improve efficiency and minimize supply chain disruptions.

EXPERIENCE

❖ RELIANCE RETAIL – FASHION & LIFESTYLE (AJIO)

Data Analytics & Machine Learning Intern

Mar 2026 – May 2026 | Bengaluru, India

- Worked on customer intent modeling, campaign spend optimization, and high-intent user identification using SQL, BigQuery, and behavioral analytics. Explored machine learning approaches for predictive targeting, funnel analysis, and customer behavior insights.

KEY ACHIEVEMENTS

- Authored and presented an **IEEE conference paper (ICOECA 2026)** on a multi-layer deep learning framework for real-time, explainable phishing detection achieving high accuracy and transparent decision-making.
- NPTEL Certified – **Data Science for Engineers:** Applied data analysis and visualization for business insights.
- NPTEL Certified – **Edge Computing:** Real-time analytics and distributed processing for BI systems.
